

PROGRAM OVERVIEW and UPDATE

State of Delaware Radon Program

Division of Public Health
Office of Healthy Environments

June 26, 2019

Regulatory Overview

- The Delaware Program is a “non-regulatory” program with no authority to require testing, mitigation, contractor certification, or reporting.
- Delaware real estate law requires disclosure of radon testing results and mitigation systems to home buyers.
- Office of Child Care Licensing requires testing every 5 years, mitigation required for elevated facilities.

Contractor Registration

- Delaware encourages radon contractors to register with the Radon Program.
 - No-cost voluntary program
 - Must be certified by an EPA recognized organization (AARST-NRPP, NRSB)
 - Must be a licensed business in Delaware
 - Submit monthly reports of testing and mitigation
